1. Pengantar Desain Interaksi

Human Computer Interaction (HCI)

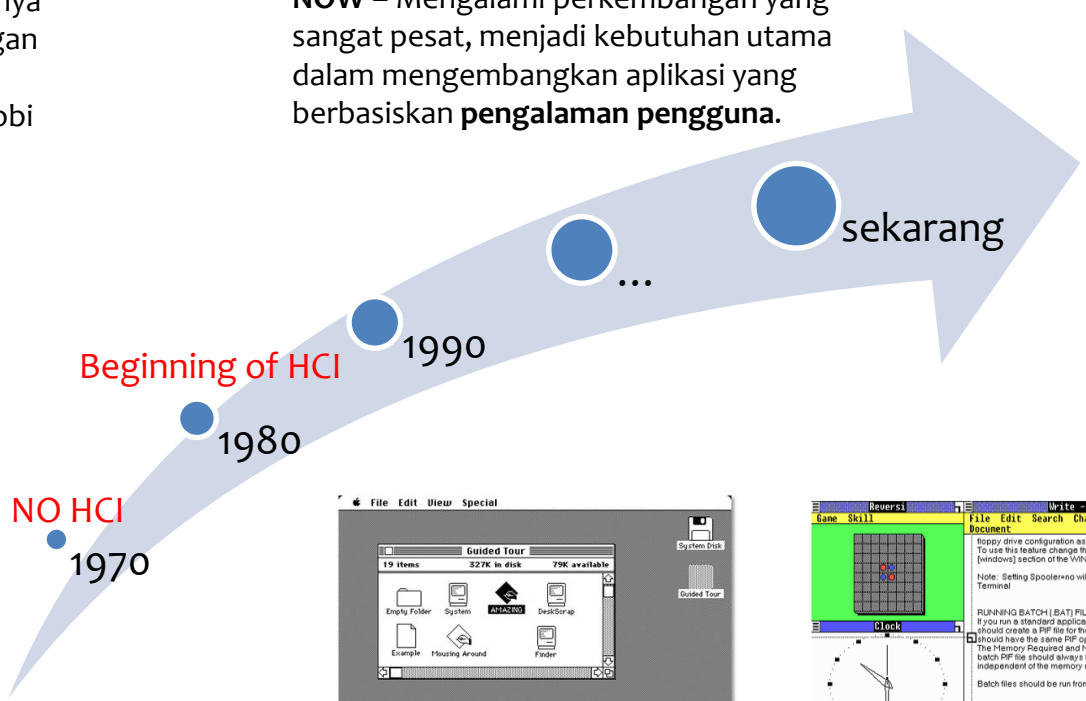

Human-computer interaction (HCI)

Bidang khusus dalam ilmu komputer yang mempertimbangkan aspek interaksi antara manusia komputer (1980)

Human Computer Interaction (HCI)

Hingga akhir **1970-an,** satu-satunya manusia yang berinteraksi dengan komputer adalah profesional teknologi informasi dan penghobi yang berdedikasi.

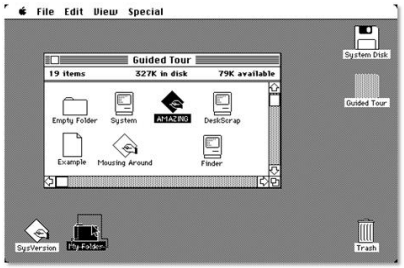

NOW – Mengalami perkembangan yang sangat pesat, menjadi kebutuhan utama dalam mengembangkan aplikasi yang berbasiskan **pengalaman pengguna.**

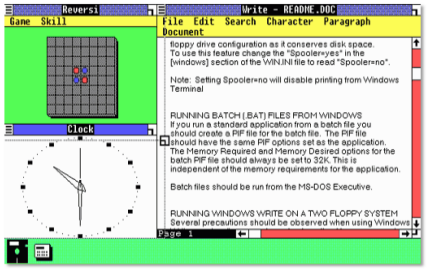

1980 - Perkembangan ilmu komputer memang sangat pesat, banyak sekali software dan aplikasi yang diluncurkan untuk dapat digunakan oleh siapapun. Itu membuat siapa saja bisa menggunakan komputer.

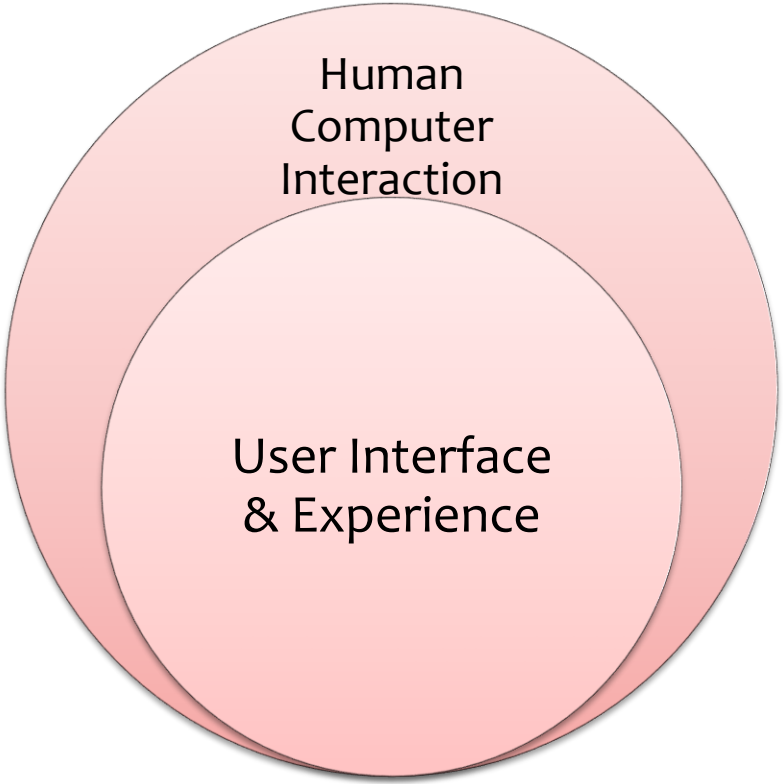

1984 - Apple Macintosh

1985 - Windows 1.0

Hubungan HCI dan UI/UX

Apa itu desain interaksi?

“Designing interactive products to support the way people communicate and interact in their everyday and working lives.” - *Preece, Sharp and Rogers (2015)*

“The design of spaces for human communication and interaction.” - *Winograd (1997)*

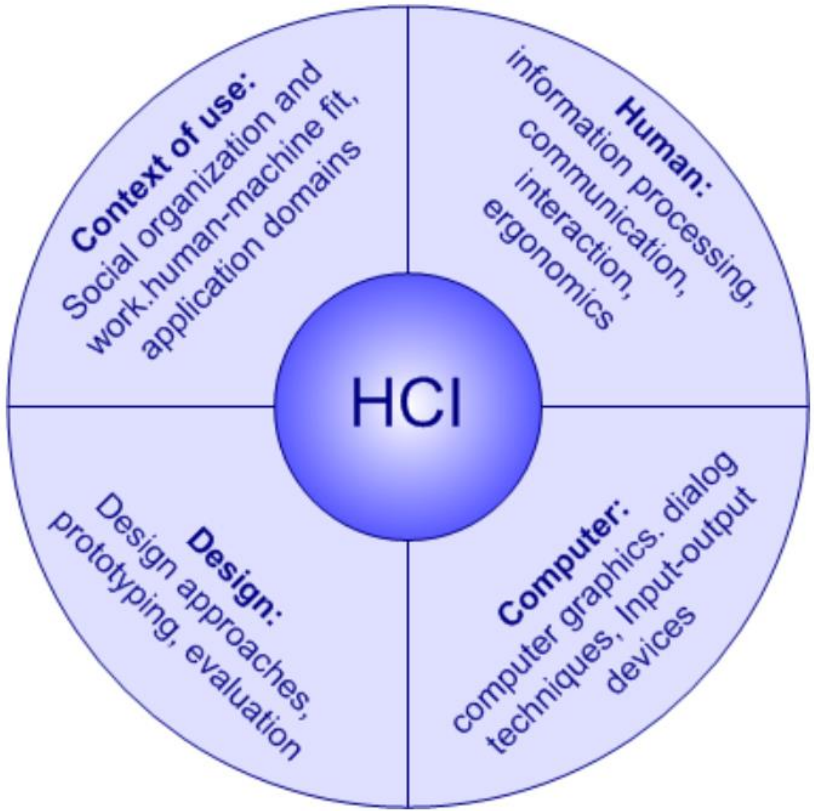

Komponen Desain Interaksi

Interaction design is the umbrella term covering
of these aspects

- Fundamental to all disciplines, fields, and approaches concerned with researching and designing computer based systems for people

Terms emphasize what is being designed, e.g.

- user interface design, software design, user-centered design, product design, web design, experience design (UX)

Tujuan Desain Interaksi

Develop usable products

- Usability means easy to learn, effective to use and provide an enjoyable experience

Involve Users in Design Process!

Pengenalan UI/UX

Definisi UI/UX

User Experience

Is how a user interacts with a product and feels as a result of that interaction

Understanding UI/UX

A WEBSITE OR APPS IS LIKE A HUMAN BODY

Code =Skeleton

UX =Organs

UI =Appearance

The combination of solid bones (code), healthy organs (UX)and pleasant appearance (UI), creates a functional meaningful and aesthetic organic machine (website or apps).
